

Standard, Integra and Vantage Interior Upgrades

Comfort upgrades mean more convenience for users - bigger sales for you.

DIPLOMAT UPGRADES

Diplomat features upgrade any PolyPortables' standard size unit to offer your customers a more luxurious environment:

- FlipTop tank
- DropTank lid
- Pro-12 or Pro-22 Hand Wash Station
- Door mirror
- Lotion Spray Soap Dispenser
- Paper Towel Dispenser
- Coat Hook
- Courtesy Shelf

Step up your sales with a Flush Tank, Pro-12 or Pro-22 Hand Wash Station, and seven other amenities – now available for all PolyPortables standard size units

AMBASSADOR UPGRADES

Ambassador features upgrade a basic Standard, Integra or Vantage unit, to include 10 high-demand amenities:

- Flush Tank with multiple flushing options
- Foot pump flush
- Pro-12 or Pro-22 Hand Wash Station
- Door mirror
- Lotion Spray Soap Dispenser
- Paper Towel Dispenser
- Coat Hook
- Courtesy Shelf
- Motion-activated light
- Take A Seat spray toilet seat cleaner

Pro-12 and Pro-22 Hand Wash Stations

Pro-12

Pro-22

- Molded-in spigot means no more breakage. Virtually vandal-proof!
- Flow-modulation chamber compensates for over-aggressive pumping.
- Fill and drain access ports are convenient, with all-plastic rust-free plugs.

Why professionals prefer our Flush Tank

Full-bowl flush

The Flush Tank features a unique 360° nozzle that delivers a powerful jetting action to the entire surface of the bowl, ensuring a more complete bowl evacuation with minimal pump pressure.

Flapper-free design

The Flush Tank doesn't require a flapper to mask the visibility of the waste below. Flushing waste empties forward – unobstructed and hidden from the user's sight.

Three Flush Options

You can choose fresh water flush, re-circulated flush, or combination flush. Just flip a valve to convert the Combo Flush Tank from re-circulating to fresh flush. Unit accesses fresh water supply in the Pro-12 or Pro-22 Hand Wash Station; no special water tank is needed!

Easy Accessibility

With the Flush Tank's lid raised, the pump and hoses of the flush system are easily accessible for service or adjustment.
